

# Lucas de Oliveira

## Software Developer

[lucasdeoliveiraexp@gmail.com](mailto:lucasdeoliveiraexp@gmail.com)

<https://lucasdeoliveira96.github.io/>

---

CS Student with experience in full-stack development with .NET based applications and static sites. With projects that can be applied to different problems. That said, I'll be able to apply my knowledge and skill set to resolve different sets of problems and challenges.

---

### Technical Skills:

Languages:	HTML w/ Bootstrap, CSS, Javascript, Python, C, C#, SQL, AdvPL, Bash.
Frameworks:	ASP.NET MVC 5, Winforms .NET, Bootstrap.
Tools:	SSMS, MySQL, Bash, VS Code, Visual Studio 2022, Protheus, GitHub, NPM, Git.
Additional:	Windows, Pair Programming, SCRUM, XP, Database Management, Server Management.

---

### Professional Experience:

#### Software Developer/IT Support

##### Beauty Fair | 2023

I've been supporting and developing AdvPL programs for TOTVS Protheus. Developing query and programs using SQL to easily bring information to employees and testing while development.

#### Young Apprentice/IT

##### Beauty Fair | 2022-2023

Assisting when possible with administrative processes in each sector of the company. IT support, also providing support and developing AdvPL programs for TOTVS Protheus. Developing query and programs using SQL to easily bring information to employees and testing while development.

Wrote Python programs for automatization of repetitive tasks.

#### Computer Support

##### Valdivino de Castro Pereira | 2019-2021

While in middle-school I've solved problems involving computers, audio and projectors, along with assembling equipment when necessary. Wrote programs for some classes to help professors teach and automate processes. Develop static sites for some projects using bootstrap.

---

### Personal Projects:

- Multipath Game.
- BMI Calculator.
- Dice Rolling.
